

The Assistant Manager™

BUSINESS INTELLIGENCE

Advanced Data Mining

Rapidly produce, schedule, and distribute analytics that range from basic to advanced.

Dashboards

Develop distinctive dashboards containing data widgets in many formats including charts, pivot tables, and reports.

Graphs and Charts

Produce graphs and charts that can slice and dice data from all aspects of your operation.

Reports and Pivot Tables

Produce ad-hoc reports and data exports. Then save and reuse them whenever needed.

Scheduled Reporting

Easily schedule and distribute any business intelligence dashboard, graph, report, or pivot table.

Set Frequency

Easily manage production schedules for all recurring analytics.

Define Recipients

Build a distribution list containing their email addresses.

Unattended Delivery

Deliver analytics automatically and punctually to key team members.
